CUB CADET® OHV ENGINE

16" X 4.8"  
TRANSPORT WHEELS

CAST-IRON  
SPLITTING WEDGE

LOG TRAYS

2-YEAR LIMITED  
RESIDENTIAL WARRANTY†

## HIGH PERFORMANCE TO SPLIT YOUR WORK IN HALF.

The Cub Cadet® Log Splitter was designed to meet high expectations. Its precision-made beam allows for a rugged cast-iron wedge, and the robust cast-steel foot plate ensures years of operation. The 13 GPM pump, powerful 277cc Cub Cadet® OHV engine and automatic return-to-neutral valve provide a swift 15-second cycle time. And log trays, flip-down jack stand, coil-wrapped hoses and diamond-tread fenders provide ease of use and protection.

INNOVATIVE FEATURES FOR AN INCREDIBLE EXPERIENCE. THAT'S THE **CUB CADET ADVANTAGE.**

### VERTICAL/HORIZONTAL OPERATION

This smart design splits in both positions — allowing more versatility. It's easier for you to split heavier logs without lifting them as high.

### 13 GPM HYDRO PUMP/AUTO RETURN VALVE

Splits wood and resets to splitting position in as low as 15 seconds. It takes less time to split log after log — so you will finish your workload faster.

### 277cc CUB CADET® OHV ENGINE

Get quieter, cleaner and more fuel-efficient results with the high-performance 277cc Cub Cadet® OHV engine. It's more powerful and reliable, so you can split more logs in less time.

**QUIETER OPERATION.**

With a 208cc Cub Cadet® OHV engine and up to 150 mph wind speed, the Jet Sweep Blower has the might to clear a yard, sidewalk or parking lot faster than you ever thought possible. And it was designed to create fewer decibels of noise, so it's easier on your ears and your neighbors'. All of which means you'll finish what is usually a back-breaking job in less time and with less hassle.

**JET SWEEP  
BLOWER**

JS 1150

**FEATURES**

.....  
CASTER WHEEL  
.....

.....  
PREMIUM ENGINE  
.....

.....  
UP TO 1,000 CFM  
OF AIR VOLUME  
.....

**LOCKABLE/PIVOTING  
FRONT CASTER WHEEL**

This solid rubber wheel easily maneuvers around obstacles and locks out for straightaway usage. You control where the debris blows — making it easier to clear your yard, sidewalk or parking lot.

**208cc CUB CADET®  
OHV ENGINE**

Premium, horizontal shaft engine provides extended life and smoother, easier starts. Its engine is more durable and efficient — so you get much more out of your investment.

**UP TO 150 MPH  
WIND SPEED**

Get stronger clearing capacity with greater wind speed and up to 1,000 cfm (cubic feet per minute) of air volume. It will take less time to clear your yard — giving you more time to enjoy it.
