

## Technical Specifications

**Product Name**

**Boss Industrial 25 ton Horizontal / Vertical Gas Log Splitter**

**Model #**

**WD25T-SU**

Powered by	Subaru engine SP170		
Gas Engine Specifications	Type	4 cycle, OHV, consumer	
	Rated power output (J1349) hp / rpm	5.7 / 4000	
	Gross torque ft lbs / rpm	8.34 / 2500	
	Displacement	169 cc	
	Max. speed	4000 rpm	
	Cylinder bore*stroke	2.64*1.89 in.	
	Oil capacity	20 oz	
	Lubrication	Splash	
	Auto low-oil shutdown system	Yes	
	Start	Recoil	
	Cooling system	Air	
	Ignition system	Electronic spark	
	Fuel capacity	3.4 qt	
Dimension	12.2(Width)*14(Depth)*13.2(Height) in.		
Dry weight	33 lbs		
Log Splitting Specifications	Splitting force (Max.)	25 ton	
	Cylinder Bore	4.0 in.	
	Cylinder Stroke	22.6 in	
	Pump	Two stage, 11 GPM	
	Rated system pressure	3750 psi	
	Oil capacity	3.5 Gallon	
	Splitting length (Min.)	5 in.	
	Splitting length (Max.)	25 in.	
	Splitting wedge height	7 in.	
	Splitting diameter (Min.)	4 in.	
	Splitting diameter (Max.)	14 in. **	
	Splitting time	14 seconds	
	One hand operation	Yes	
Machine Specifications	Horizontal Dimension	85.5(Width)*40(Depth)*39.5(Height) in.	
	Vertical Dimension	84(Width)*40(Depth)*67(Height) in.	
	Net weight	474 lbs	
	Towable	Yes	
	Wheel	D.O.T. 16 x 4.8 x 8 in.	
	Assembling required	Yes ( Medium, 60--90 min)	
Packing	Cardboard box in metal crate		
	Dimension (Length*Depth*Height)	85*22*22 in.	
	Gross Weight	596 lbs	
Optional Accessories	Cross wedge	Model #: CW-W	
	Wheeled trailer jack	Mode #: TJ-11	
	Log splitter cover	Model #: CV-1	

\*\*It could be above 14 inch potentially up to 20 in. according to user feedbacks, which depends on log hardness, dryness, grain straight, etc.. Please release the control handle immediately when the wedge is struggling to cut through an extremely hard or oversized log. DO NOT force the machine.
